BANKS IN BAD CONDITION

The Statement This Week Was Not Encouraging.

THE LOAN CONTRACTION

Considerably Reduced Reserve Requirements-Large Loss in Cash Attributed to Withdrawals by Trust Companies.

(By Associated Press.)

NEW YORK, June 6.—To-day's market was free from liquidation of the character of that in evidence during the week and the operations were largely professional. As stock market loans made on Friday carry over until Monday, the money condition caused no actual pressure during the Saturday seasion and operations based upon it are simply an licipatory, and in the nature of surmise over future effects on the part of professional operators.

The bank statement evidently impressed this class as threatening a future curtiliment in loans. Instead of a decrease of not more than \$5,00,000 as was anticipated, the bankes takened of a decrease of not more than \$5,00,000 as was anticipated, the bankes takened of a decrease of not more than \$5,00,000 as was anticipated, the bankes takened of a decrease of not more than \$5,00,000 as was anticipated, the banke at the load of the worker than the showing of a second of the cash persources of lot for export was received. It is estimated that it did not figure for its full effect into in the weekly averages, so that the conditions of the banks is helieved to be worse than better, than the showing of averages. The loan contraction of \$7,837,800 reduced the reserve requirements considerably, so that the previous surplus, bringing it below the \$5,000,000 mark.

A further loan contraction seems to be indicated for next week.

The large loss in cash is attributed to withdrawals by trust companies to comply with the clearing house requirement for five par cent, of cash reserves, which went into effect June 1st. There was some early improvement of prices which seemed due to covering by shorts, but the selling after the bank statement carried the average lovel below last high. Atchson and Union Pacific were notably pressed for sale and the delayed planting of time corn crop was the motive assigned for the movement. New York Central also ran off sharply at the last, Amalgamated Cooper fluctuated feverishly, within a fractional range and closed the \$2.000.000 mark and t

Stocks, as a surfered in sympathy with Stocks, United States Steel 2's and the govern-ment old 4's advanced 1-4 per cent, and the 3s 1-2 per cent, as compared with the closing call of last week. Total sales of stocks to-day were 208,400 shares.

MONEY AND EXCHANGE-CLOSE: Time money, frm; sixly days and ninety days, 4 1-226 per cent; six months, be 1-2; money on call, nominal; prime mercantile paper, 4 3-45 1-4; aterling exchange, steady, with actual business in bankers' bills, at \$4.57.6664-33 for depand; and at \$4.8674-85.10 for sixty day bills; posted rates, \$4.85, 1-264.56 and \$4.85, 1-264.85; commercial bills, \$4.84, 5-46, 4.85, 3-5; bar silver, 63; Mexican dollars, 42.

WEEKLY BANK STATEMENT. NEW YORK, June 6.—The statement of pverages of the clearing house banks of lifs city for the week shows: Loans \$195,185,100 decrease \$7,837,800. Deposits \$83,225,000 decrease \$14,465,600. Circulation \$44,02,900, decrease \$11,100. Legal tenders \$72,702,100, decrease \$1,207,-702.

pecie \$156,729,809, decrease \$8,483,700, Teserve required \$234,666,250, decrease \$3, Surplus \$4,775,650, decrease \$4,569,500, Ex-United States deposits \$14,079,150, de trease \$4,878,100.

Wall Street Gossip.

(Special to The Times-Dispatch.)

NEW YORK, June 6.—Sugar railled rather rell, as it was taken that the recent decline serely indicated the liquidation of a weak built coculit, possibly for Boston, and bore no relation to trade conditions which are considered fairly good for the time of the year.

Canadian Pacific showed a rather firmer tone on what looked like a moderate resumption of foreign buying. The stock is still scarce in the street, and foreign houses admit that they have shipped a good deal to Europe in the recent past.

With regard to the published statement that syndicate had been formed to take over 40,000 area of Domision Coal stock from Ames & Co., of the dram and current for saying the holdings free dram and current together did not ag-regate 10,000 shares.

Although the trading was not in very large volume the market acted well in the drat hour, tod some early recessions were rather well resourced. It was thought that even if the bank interment were a bad one it had been pretty well discounted, and the room traders seemed be preparing themselves for a covering movement which ever way the showing went.

After some selling of Atchinon common by Groesbeck, presumably long stock, was over, the price rallied well. The seneral impression is that the weak Western boldings have been liqui-dated almost entirely.

Amalgamated Copper acted rather well, and it was said that the Standard Oil people have bought it on the recent slump. The recovery in copper stocks in London was an ecouraging feature.

Brooklyn Rapid Transit was the strongest of the tractions stocks, and has been bought in some quantity in the recent past by people in-terested in the development of Brooklyn. The prospects for summer earnings No exceptionally good, and the traffic to Coney Jeland in parti-cular is likely to beat all records in view of the important improvements in that district, and particularly the popularity of the New Lana Park.

Line common, 23224%; do, preferred, 30%334;.
Seaboard 47, 70820. Atlantic Coast Line common and freprerred, no sales.

NEW YORK, June 6.—The cotton market opened steady at an advance of 1 point to a decine of 5 points on local influences, but relied to a net gain of 2@5 points, largely on covering by recent sellers who were impressed by the appearance of buying orders from New Orleans. The fact that there were no cables led to conservation, while the weather news was general pregarded as unsatisfactory. This led to some increase in the demand for the new crop positions in connection with indications of a substitutions in connection with indications of a substitution in connection with indication in connection with in

THE MANN LAW IS PROHIBITIVE THE SAVINGS BANK OF RICHMOND

Steamers Bring Jugs, but the Sale of Liquor on Northern Neck Has Stopped.

(Special to The Times-Dispatch.)

HEATHSVILLE, VA., June 6.—The wheat crop through the Northern Neck is about to terminate in a failure.

The stalk and blades have turned yellow and the wheat filds are almost as yellow as gold. This unfortunate condition is said to be due to the excessive rains during the early months of spring.

The operation of the Mann liquer law throughout the Northern Neck should give the utmost satisfaction to the advocates of the anti-whiskey traffic. All of the saloons in the five counties of the Northern Neck have been closed with the exception of those at Colonial Beach. Of course, numbers of private jugs arrive on every steamer from Baltimore and Washington, but there is but a small per cent of the whiskey consumed now that was before the Mann law went into effect.

The steamboats, in spit of the fact that these counters and wood.

feet.
The steamboats, in spit of the fact that these counties had voted local option, used to sell liquor as they would move from one wharf to another, but, now they have refrained from this. Almost absolute prohibition prevails in the Northern Neck.

The American Machine and Excelsion Company, of Baltimore, and Hon. John M. Lyell, of Farnam, will erect at once at Simonson. Richmond county, an excelsior mill, 60x80 feet. The main building will be built of fron siding and reofing, and will be equipped with the latest and most highly-improved machinery. A wharf will also be creeted on which will be built a large storage house. This new enterprise, will give employment to a large number of people, and will prove a great benefit to the community in which it is located.

Mr. Lyell will have the management of the business, which he expects to have in full operation by the first of August. The buildings will be lighted by electricity.

George A. Carier, of Emerton, Richmond county, was brought before Justice.
